**Glimpses of July & August 2013 Event**

more fat by swift walking than running. We sweat because the body has to cool down, not because our body is excreting material from fat breakdown in our body. Initially running does not help burning a lot of fat, but it does help burning fat on a long run as when we exert our body by running we develop muscles in our legs, thighs and many other parts in our body which also come under exertion because of running.....” Read more, click on
